## SafePad

### **Safepad Large**

**\$32.00**

A larger Safepad for controlling bigger hazards such as large beams, cross members and stairways [\[Product Details...\]](#)

### **Safepad Original**

**\$20.00**

Incredibly versatile and designed for majority of impact hazards. Typical hazards include scaffold joints, valve handles, beams, handrails and sharp edges. [\[Product Details...\]](#)

### **Safepad Secure**

**\$23.00**

Safepad Original includes steel eyelets located within the straps to allow securing with a cable tie during application. [\[Product Details...\]](#)

### **Safepad Edge**

**\$99.00**

Safepad Edges come in four models to cover edges and verticals that pose as hazards. Range includes a 1/2 circle, 3/4 circle, a slotted profile and a low profile edge. All come with yellow and black striping. [\[Product Details...\]](#)

### **Safepad Cylinder**

**\$29.00**

Foam cylinder designed to wrap around length of scaffold tubing or pipe of approximately 50mm (2") diameter. [\[Product Details...\]](#)

### **Safepad Tube-End**

**\$15.00**

Soft yet durable EVA foam cylinder cap designed to cover the protruding end of 50mm (2") diameter pipe-ends, valve handles, exposed re-bar/formwork and other small diameter hazards. [\[Product Details...\]](#)

### **Safepad Tube-End Small**

**\$14.00**

Soft yet durable EVA foam cylinder cap designed to cover the protruding end of 25mm (1") diameter pipe-ends, valve handles, exposed re-bar/formwork and other small diameter hazards. [\[Product Details...\]](#)
